## JOB OBJECTIVE

Second-year Computer Science student, I am seeking an internship in industrial software development and automation. Through my academic curriculum, I have developed strong programming and algorithm development skills across various technologies. I am eager to work on data processing, task automation, or embedded systems within an industrial context, applying my technical knowledge to real-world challenges.

## WORK EXPERIENCE

**Software Development Project** December 2024  
[Université Savoie Mont-Blanc - Annecy, France](#)  
Designed and developed an internal management software for Pilot (fictional company) using WPF (C#). The project involved complete software lifecycle management, from UML diagram conception to database design and implementation.

**Event Organization** March 2019  
[JCVA Judo Club - Arbent, France](#)  
Organizing local tournament logistics (competitor weigh-ins, match scheduling, refereeing).

## EDUCATION

**BUT Informatique (Technical Bachelor's Degree in Computer Science)** Currently  
[University of Savoy / IUT Annecy - Annecy, France](#)  
Three-year undergraduate diploma - Second year in progress

**CPGE MP2I (Preparatory Class for Engineering Schools)** 2023 - 2024  
[Lycée Berthollet - Annecy, France](#)  
Mathematics, Physics and Computer Science intensive program

**French Baccalaureate with honors** 2023  
[High school diploma specialized in Mathematics and Computer Science](#)  
Advanced Mathematics option

## MISCELLANEOUS

**Martial Arts:** Practiced judo for 10 years at JCVA Arbent (2010-2020), achieved brown belt level.  
  
**Music:** Bassist in two rock bands (Rock Tree and school concert project). Former member of the "A vos oreilles" music association in Oyonnax, which organizes musical events.  
  
**Leadership:** Secretary of the Student Union (BDE) at Lycée Berthollet's preparatory class (2023-2024).  
  
**Licenses:** Coastal boat license holder.
